## HILLTOP ANIMAL HOSPITAL MISSION STATEMENT

---

*At the Hilltop Animal Hospital, our mission is to treat every pet entrusted to our care as if it were our very own. We believe in and strive to nurture the human – animal bond. All patients receive “**State of the art medical care and state of the heart attention**”. We are dedicated to having an educated and confident pet care team. Pet owners should be thoroughly educated on how to best provide for their pet’s needs. And every single client should leave feeling satisfied beyond their expectations.*

## PETS ARE FAMILY TOO AND FAMILY COMES FIRST

At the Hilltop Animal Hospital, "Family comes first" is more than just a catch phrase. It is a way of life. You see, all of our team members believe that pets are every bit as im-

portant as any other member of our families. Each and every one of us at

Hilltop Animal Hospital has four-legged family that we live with. And so, we know and understand your love and devotion for your furry family member. Day in and day out we work to foster the human-animal bond. We want to make sure your family members live long, healthy and happy lives. We want to be the health advocate for the life of your family pet.

## ...WHERE STATE OF THE ART MEETS STATE OF THE HEART!

It is our intention to always provide our patients with the best health care available in this area. From complete physical examinations at every office visit to an extensive referral system for complicated or specialty cases, we go the extra mile to make sure that our patients receive exactly what they need when they need it. We are constantly updating our equipment, inventory and veterinary skills and knowledge to keep up with the state of the art. We offer in house laboratory testing along with a full service laboratory backup. We also have radiology, EKG, and other modern diagnostic equipment should your pet require more extensive care. State of the art anesthetic protocols, sterile surgery, as well as intra-operative cardiac and oxygenation

monitoring assure that whatever the need, your pet will receive the safest and most effective care available.

## BUT WAIT... THERE'S MORE

---

We don't just stop at excellence in health care. Our ancillary services also go the extra mile. We offer **grooming services** from simple bathing to complete specialty breed cuts. Your pet will be poofed and pomped with style and grace.

Going out of town? No problem. Our **boarding service** offers soft bedded kennels, outdoor walks in the country, and a little extra love and attention for good measure. And, as if that weren't enough, we have squeaky and chewy toys for their quiet moments.

How about a disorderly or misbehaving pet? Our trained **pet behavior counselor** can answer your questions and tailor a behavior modification protocol to suit your pet's situation and temperament.

We also carry the full line of **Hill's Science Diet and Prescription Diet** for your pet's gastronomical delight.

So come on down to the Hilltop Animal Hospital to meet our excellent staff and enjoy a complimentary tour of our "State of the art facility and state of the heart care."
